1) Claims 30 to 33 are pending in the instant application. Claims 1 to 29 have been canceled and claims 30 to 33 have been added as requested by Applicant in the correspondence filed 30 June of 2004.

2) Claims 30 to 33 are allowed and have been renumbered 1 to 4, respectively.

4) The drawings in the instant application do not comply with 37 C.F.R. § 1.821(d), which requires a reference to a particular sequence identifier (SEQ ID NO:) be made in the specification and claims wherever a reference is made to that sequence. M.P.E.P. 2422.02 expressly states that "when a sequence is presented in a drawing, regardless of the format or the manner of presentation of that sequence in the drawing, the sequence must still be included in the Sequence Listing and the sequence identifier ("SEQ ID NO:X") must be used, either in the drawing or in the Brief Description of the Drawings". Figures 2A to 2K describe an amino acid sequence and nucleotide sequence without employing the required sequence identifiers. Correction is required.
